Problem

Collaborating on a CAD project while keep track of the process is painful.

Value Proposition

A mobile app with VR mode that streamlines art creation by helping organize work, log process and facilitate collaborative CAD in virtual reality.

Mobile App

Design Process

Import Assets

Access thousands of 3D models in the Asset Library.

From sketch to prototype.

Organize work. Log process.

Collaborative CAD in VR.

Revert to History

Select an object and toggle through its history like Dr. Strange.

Collaborate!

Work with friends together with auto collision handing.
